Feedback from Employers – 2022-2023

Feedback was collected from employers recruiting BNCA students. The feedback was regarding the employees, satisfaction with respect to our student as employees and the curriculum followed. They were requested to give their feedback on the current curriculum, whether it addressed current trends, what needed to be modified and what subjects were not required.

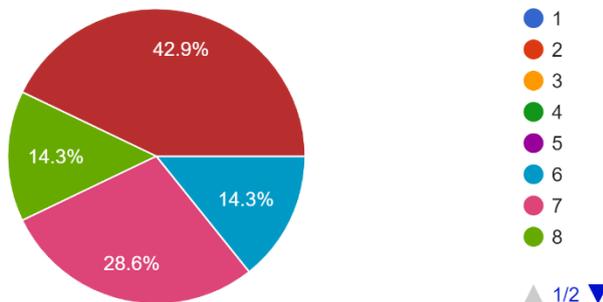

Employee Feedback

Employee Feedback

On a scale of 1 to 10 how do you rate your overall satisfaction with Dr. B.N. College of Architecture students and the curriculum?

Is the curriculum addressing the current trends/needs of the profession?

7 responses

What subjects need to be emphasised on?

Building construction and design
Building BYLAWS, Codes, Site inspection, Presentation
DRAWING BY HAND
Professional Practice and conduct
social architecture
Building Construction, working drawing and services
New construction techniques used in today's era along with understanding of why we do what we do.

What subjects are not necessary in today's context?

They are all required but the curriculum needs to be updated.
All subjects add value as a larger picture.
NOT SURE
None
NA
not applicable
Exposure to new materials and use of them along with the cost implication.

How could our program be improved? What specific comments do you have regarding the curriculum?

Most books followed are completely dated.

The intent of doing an internship is many a times unclear to the students. It is many a times regarded as just another submission filling office hours to obtain a certificate.

NOT SURE

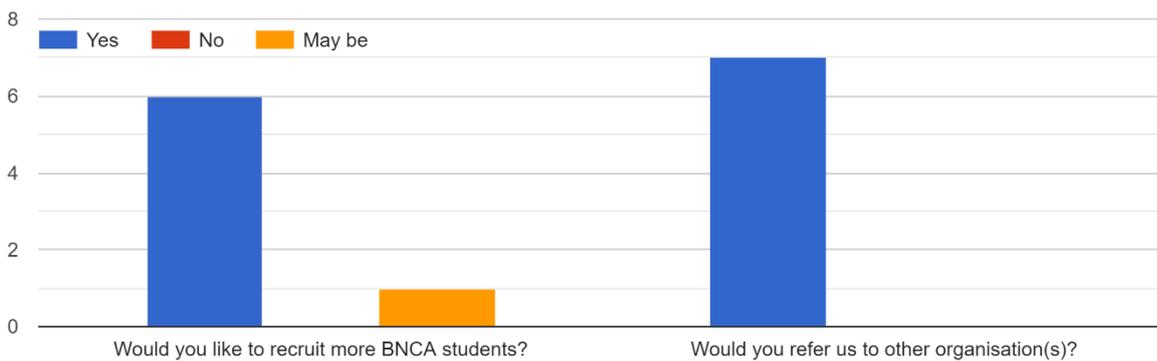

None

NA

the curriculum should include municipal drawing and municipal bye laws which is a part of Mumbai university

As mentioned above, curriculum should involve a part of understanding towards the BOQ, estimation and specification writing along with the designs.

How could our program be improved? What specific comments do you have regarding the curriculum?

- Practical with Market conditions
- Students should get practical knowledge during there academics
- more practical knowledge is needed
- Nothing specific
- YOU SHOULD ARRANGE AT LEAST ONE PARENT -TEACHER MEET PER TERM
- . Student to be provided facilities like laser cutting without charges so that they can learn new technics.
- Continue whatever you are doing
- Compulsory student exchange program
- Its okay as per the industry standard
- NO COMMENTS
- The program should be more practical oriented by considering the latest trends in the market.
- Nothing to comment
- Improve administration. Fee receipts are not provided! Why no firm is interested to carry out placement campaign in our reputed college? Or college does not want to. Need to improve a lot.
- nothing specific

Nil

The faculty don't provide presentations to study, they either share it at the end or they simply don't share. Subject like building services faculty don't share students with the study material. Even the quantity survey faculty informs that they will share it at the time of exams. This is not helping the students at all. This really need to be looked into.

Should be more interesting and fun.

Better planning of curriculum, Assign more efficient teachers to teach software, Help students for buying essential softwares through bulk buy, Keep taking honest periodic feedbacks & introspect .

BNCA is one of top college of Asia.

By personal interactions with individual students

No changes expected, satisfied with the curriculum

Insufficient vacations to students.

None

College information and student performance with parent is less this will be improve very good nothing to say any more

ALL LOOKS SATISFACTORY

Providing some more resources to the student's.

By Proper guidance

very good

Suggestions regarding the curriculum

More hands-on learning to be incorporated

Landscape architecture subject syllabus is too vast to be covered in one single semester .

A leaning towards the practical side of architecture will be more suitable for helping students join the profession.

There should be written examination for Urban Studies subject.

First year AGD can be revised. It could be a mix of previous and new syllabus.

Curriculum could focus more on formative/progressive assessment than term end evaluation

4th year syllabus is quite precise but the other years syllabus calls for upgradation

The duration given for AGD -Architectural Graphics and Drawing syllabus is reduced to 1 year which is insufficient in terms of practice time that is required for student in order to understand and apply it in other subjects. Even time management in completion of drawing is very basic that student need to learn . If AGD is distributed to 4 semesters it can help student to learn drawing language appropriately.This duration shall be utilized to develop skills of sketching and drafting.

It needs to be now updated with latest technics and methodology and to be more focused on Architectural scope only.

Curriculum should test practical applications, encourage research based learning, promote hands on training

To orient the students a little more towards exposure of market study.

The curriculum is giving only introduction to topics, in depth study of topics is missing as many subjects don't have examination that leads to ignorance by students

The curriculum is less suited for the current trends and practicies in the professional industry.

Curriculum should offer more flexibility for defining outcome of the Design based subjects. It should also offer flexibility for swapping the design curriculum of semesters of one academic year.
