REGISTER NOW!

Duration:

OCT 2023 to FEB 2024

CLASSROOM SESSIONS

Online on Saturdays and Sundays:
11 am to 1 pm

FIELD VISITS

Options: @ PUNE or
@ Bangalore

The program aims to give participants a strong foundation of the concepts and principles of ecological restoration, role of biotic and abiotic factors in restoration, the planning, implementation and monitoring of restoration projects, and global standards and best practices in the field. This would equip participants with the knowledge needed to embark on restoration initiatives and gain further experience in the discipline. The program has a good mix of classroom sessions focused on concepts and case studies, and field sessions focused on exposure to practical aspects that are key to successful restoration.

Reflections from Alumni Batch 1- 2020 and Batch 2- 2021

" I found interactions with all the faculty very useful. This course has given me mentors for life! Every doubt was patiently answered. The experience was enriching interacting with an inter-disciplinary group of people. "

Purna Agarwal

Ecologist,
Ecosphere Connect

" It was a fantastic experience to mingle with like minded people and learn from experts who have had hands-on experience in the field . "

Ritu Gavandi

Environment Enthusiast.
and Liberal Art Expert

"It was a great introduction to the practice of restoration, and it was great getting to meet many of the professionals in the field from around the country. "

Nick Nugent

Carbon & Sustainability Expert

" Experience was awesome, so informative and it's change my perspective to see the nature. "

Pravin Pawar

Horticulture and Softscape Execution Expert

" Was curious about the Ecological field, the course turned out to be very apt and relevant for a basic and fundamental understanding of ecological restoration field. Having said so, it also emphasized the importance of working with an experienced practitioner to learn in-depth the detailed but very significant knowledge required for a practitioner. In the indoor sessions, the team work tasks were excellently structured and were surely enjoyably at the same time. Very happy that i participated and was a part of this course. "

Shraddha Katke

Landscape Architect
