BNCA is Asia's best architecture institution Feb 24 2015 : The Times of India (Pune)

Our college has been named Asia's best architecture college for the year 2014-15 by the prestigious World Consulting and Research Corporation (WCRC) after a research survey by KPMG. BNCA was given top rank on the basis of the studies in architecture and research carried out by the institute. The award will be given to the college authorities on April 23 this year. The selection was based on primary and secondary research, scores from jury members and KPMG.

BNCA is Asia's best architecture institution

Times News Network

Pune: City-based Dr Bhanuben Nanavati College of Architecture (BNCA) for women has been named Asia's best architecture college for the year 2014-15 by the prestigious World Consulting and Research Corporation (WCRC) after a research survey by KPMG.

BNCA was given top rank on the basis of the studies in architecture and research carried out by the institute. The award will be given to the college authorities on April 23 this year. The selection was based on primary and secondary research, scores from jury members and KPMG.

Principal of the college, Anurag Kashyap, said KPMG is one of the best auditing authorities in the

BNCA was given top rank on the basis of the studies in architecture and research carried out by the institute

world and the college staff and students were happy with the results. "They analysed our reports, our studies in architecture and research studies," Kashyap added.

While the college has

been declared as Asia's best educational institution, these ratings do not include colleges from China.

The college, part of Maharshi Karve Sree Shikshan Samithi (MKSS), has a qualitative research centre

in architecture and has 18 PhD students. Kashyap said that the college has the only digital architecture course in India. "After Beijing Olympics, it was decided that India should have a digital architecture laboratory as well as a course on the subject," he added.

The college is partner in the programme of United Nations (UN) Academic Impact Partners. It has made houses for poor local residents of Tanzania, Zambia and Jamaica.

"Our students and faculty members go to these countries and learn the local techniques of constructions. They work with the local authorities as part of the programme and construct cheap houses," he added, saying that cheap accommodations are constructed with

the local technology, techniques, materials and designs.

"We have 10 more projects in the pipeline and we are waiting for the communication from UN authorities," he said.

Apart from this, the college has prepared development plans for Kasba Peth, Pulachiwadi in Deccan and for Panaji. "All these plans have been highly appreciated by the civic authorities in Pune as well as WCRC," Kashyap said.

There are 1069 students pursuing B Arch, M Arch and PhD Courses with the BNCA. The college has memorandum of understanding (MOU) with various universities in Europe, Australia, and Canada and has students' exchange programmes.

Introduction

Anna's Journey

Maharshi Karve Stree Shikshan Samstha, (MKSSS), Pune: - the 113-year-old parent body has been committed to "Empowerment of women through education". The Institution has a century long history of dedicated work towards making women educated and self-reliant. MKSSS, Pune was established in 1896 by the great visionary and social worker Bharat Ratna Maharshi Dhondo Keshav Karve to provide shelter to destitute women.

Maharshi Karve Samstha caters to women from all cross sections of the society and hence has always enjoyed the philanthropic support and well wishes from all quarters like politicians, industrialists, academicians, policy makers, common man, entrepreneurs, etc. The Samstha has always welcomed equally all those who appreciate the work of samstha and welcomes public participation too.

Dr. Bhanuben Nanavati College of Architecture for Women (BNCA), the pioneer institute in the use of advanced technology in architectural education is now completing its 15 glorious years. Established in 1994 as a part of the prestigious Maharshi Karve Stree Shikshan Samstha, the institute is not only following the ideals of the great revolutionary Maharshi Karve (pioneer of women's education in India) but also keeping pace with time in providing technical and higher education to women. Dr. B.N.College is affiliated to University of Pune which is one of the top ranked universities of the world.

Director: Prof Shruti Joshi

Dr. B.N. College of Architecture is an educational unit of Maharshi Karve Stree Shikshan Samstha. BNCA International Cell under the able guidance of Dr. Anurag Kashyap, Principal, strives for promoting the presence of BNCA at global scenario.

GATEWAY TO THE WORLD

Introduction

Dr.B.N. College of Architecture of Maharshi Karve Stree Shikshan Samstha has following programmes under its umbrella.

1. Bachelors in Architecture
2. Masters in Architecture (Landscape)
3. Masters in Architecture (Environment)
4. Masters in Architecture (Digital)
5. Computer Aided Interior Design (CAID)

With such varied courses it is necessary to keep the institution constantly upgraded and abreast of the best across the globe. With this view BNCA International Cell was started to promote institutional tie ups and collaborations that would give the students a global vision and exposure.

BNCA has always promoted **Global architect concept** very strongly and encouraged all its students to pursue higher education. A large section of our student alumni i.e.47 percent pursue their higher education at national and international level.

By the year 2008-09, MKSSS's BNCA has established itself as a leader in architectural education in India. In these years we have faced big challenges of globally changing trends in a profession like architecture. Sensitive environmental issues and hyper competition have set the rules of this profession. I am pleased to announce that we have emerged stronger than ever before making a difference to the architectural education and earning international recognition.

We recognize students as our major power and have continued our focus on the students' needs. The BNCA International Cell along with Principal Kashyap visits and corresponds with the various architectural schools and firms to initiate various bilateral relations. As the Head of the BNCA International Cell we take pride in the various BNCA international tie ups and associations we have had since then. This has not only helped our students with good exposure to the architectural scenario outside India but also strengthened the cultural ties and encouraged global fraternity. BNCA has trod the unbeaten path and its strong brand of women's education continues to consolidate and grow in popularity.

ACADEMIC STUDENT EXCHANGE PROGRAMS

Significant Developments

ONTARIO MAHARASHTRA GOA / ONTARIO INDIA STUDENT EXCHANGE PROGRAMME.

Several BNCA students under OMG / OIN programme have been going to University of Carleton & Ryerson university, etc. in Canada and have been studying for a complete term or a complete year, since Aug 2010 till date.

Dr. Sukeshi Kamra, Associate Dean at Carleton University, is the NEW Director of OMG/OIN Programme.

She has been visiting BNCA every year since 2015.

OMG/OIN:

The OMG/OIN program is open to students of BNCA who are OMG/OIN exchange students (you can take a set of courses (one or several) at an Ontario university for one term. This may count towards your degree at BNCA if credits there are carried by an Ontario university participating in the OMG/OIN Program. Each university offers a broad range of courses.

<http://www.carleton.ca/oin/>

* Carleton University, Ottawa

* Ryerson University, Toronto ... and many more.

City: Carleton, Ottawa

University Website: <http://www.carleton.ca/oin/>

Carleton's Bachelor of Architectural Studies focuses on knowledge, experience, creativity and leadership. Our program encourages you to explore ideas through thinking, working, team work with the benefit of the human experience, and working creatively through writing, model making, drawing, digital media and presentation.

Website for Student Exchange:

<http://www.carleton.ca/oin/> <http://www.carleton.ca/oin/> <http://www.carleton.ca/oin/> <http://www.carleton.ca/oin/> <http://www.carleton.ca/oin/> <http://www.carleton.ca/oin/> <http://www.carleton.ca/oin/> <http://www.carleton.ca/oin/> <http://www.carleton.ca/oin/> <http://www.carleton.ca/oin/>

Fields of study available:

Architecture and Architectural Studies (BAC) program
A major in Design
A major in Urbanism
A major in Conservation and Sustainable
A major in Philosophy and Culture

Exchange Program In-Charge:

Mrs. Dagmar Fiedl, Exchange Program Coordinator
Email: dfiedl@carleton.ca

Approximate Semester Dates:

Semester I (Fall Semester) : September - December

Application Deadline:

Deadline for applications at BNCA: December 28
Deadline for applications at the OMG/OIN: January 31 for Fall Semester. BNCA has an earlier filing deadline.

How to Apply:

BNCA and OIN have and send finished applications. Selection for this is based on very good academic performance and values a contribution made by the student at BNCA. The final selection of students for the Exchange will happen by the OMG/OIN and the number of candidates selected eventually could be 20-30 or so.

Once informed you will receive a deadline and fill the application form from the OMG/OIN website: <http://www.carleton.ca/oin/>

Credit Transfer, etc.**Cost Estimate:****Some of the things to consider are:**

- (1) you will need to pay for travel in Canada, for
- (2) you will need to purchase new furniture in Canada for 2014-2015 (2014-2015)
- (3) the need to pay for food, rent, travel, and books, as well as telephone, land mobile, and internet service. It will normally cost you between \$2000 (based \$1400/1000 per month) depending on where you live. You may receive a \$1000 stipend for 2014-2015 (per term) or \$2000 for two terms.

...the fact that they are not ...
...the fact that they are not ...

TOBACCO

The findings suggest that the use of a single, unidirectional, linear model may be insufficient to capture the complex, non-linear relationships between the variables. Future research should explore the use of more sophisticated models, such as machine learning algorithms, to better understand the underlying mechanisms of the data.

In view of Cochran's offers in the arts and technical programs, we have a special interest in mathematical studies and provide the best for a further development of potential talents. This can be considered as a special task and design a suitable training program with technical studies and resources for teaching. Student integrate and learned concepts of increasing complexity throughout the program.

TIE-UPS for Student Exchange

CND -

Agreement for Admission: Students will be considered a JC Degree Student if they pay JJC CH. FEE TO JC
 STUDY ARRANGED - for 2 Students /sem
 Students pay JJC CH. FEE TO BUC
 STUDY ARRANGED -
 Students pay JJC CH. FEE TO JC

FIELDS OF STUDY AVAILABLE:

Students will be able to recognize ANY solution that the solution set of the system has.

Approximate Semester Dates:

Semester 1 : August – December 12cp or 3-4 units (SPRING)
Semester 2 : March – June 12cp or 3-4 units (Autumn)

Application Deadline

QACA Students are eligible to apply only for SEA 3

DOI: 10.1002/ajb.10049

How to Apply

B4C₃ was a non-hot oxide – 2 candidates. Section 3 based on very good oxidative performance and which candidates made by the reduction of B4C₃.

EMBA will walk through the information provided for marketing executives.

SIGNING MoU WITH REPRESENTATIVES FROM **UNIVERSITY OF WESTMINSTER, LONDON** FOR STUDENT EXCHANGE PROGRAM - 2013

ACADEMIC STUDENT EXCHANGE PROGRAMS

Significant Developments

UNIVERSITY OF WESTMINSTER, LONDON & BNCA IS WORKING ON A JOINT VENTURE - LATITUDES. 'Latitudes' is an international network looking at creative thinking/designing for built and natural environments in an age of climate change. BNCA is one of the collaborators/key partners in this initiative.

LATITUDES[®]

Who is involved

Latitudes is organised by the University of Westminster (UK) as a global network for design and innovation for climate change. We have many participating institutions and individuals stretching from Malaysia to the East coast of America and from Africa to the Arctic.

Latitudes is open to anyone interested in sharing ideas to find design solutions to the challenge of climate change. Individuals, institutions, students, academics, professionals or researchers can all participate to post a project, join a team and create a solution.

Latitudes addresses the need for innovation and design in cities and natural environments to climate change challenges. Design can range from technologies to cities, and from water management to agriculture. Design involves thinking about policy as much as it does about place, regulatory and social innovation and we welcome a broad-based approach to creative problem-solving.

14 students from BNCA under the able guidance of Prof. Shruti Joshi & Prof. Kiran Nichale had participated in this Joint Workshop.

JOINT WORKSHOPS

Significant Developments

JOINT STUDIO WITH COLOMBO SCHOOL OF ARCHITECTURE, SRI LANKA

Sustainable Building design is at the core of **M. Arch., Environmental Architecture** course. Under the able guidance of **Ar. Rahul Nawle, Dept. Head - Prof. Sujata Karve and Team**, the subject, **Sustainable Design Studio**, aims to get introduced to plethora of sustainability issues and to think over the probable solutions or ways to achieve sustainable development.

In the endeavor to do so, 17 students of first year Master in Environmental Architecture did a collaborative activity with students of **City School of Architecture, Colombo, Sri Lanka**. They visited the City School of Architecture in Colombo during **17th to 24th January 2015**. Since the approach had always been to study at macro level, students and faculty decided to consider the area around the Galle Road, Colombo 3 for intervention.

In general the aim was to come up with proposals for the surrounding area, which would create appropriate context for micro level development. The study was done in groups and the site & SWOT analysis of the surveyed area was done. Also the local government's vision for the development of that area and the means to achieve that like local body vision statement, regulations, ongoing initiatives etc. was studied.

After conducting the collective study and analysis, the class was again divided into 8 groups and worked on probable solutions on the problem areas identified covering different aspects of sustainable development which compiled in this report.

JOINT WORKSHOPS

Significant Developments

JOINT STUDIO WITH UNIVERSITY OF ILLINOIS, URBANA CHAMPAIGN

Joint Workshop of BNCA, India with University of Illinois, Urbana Champaign, in Varanasi 3-10 Jan, 2016 took place under the able guidance of Prof. Shubhada Kamalapurkar & Prof. Sandhya Nivsarkar.

STUDENT'S IMPRESSION OF VARANASI AND THE WORKSHOP -

JOINT WORKSHOPS

BNCA - UNAI DEMOLA WORKSHOP - MAR 2016, FEB 2017

BNCA, in association with **Demola (Budapest)** and **Green Contributor inc. Canada**, under **UNAI Programs** successfully completed the **Emergency Shelter Design Workshop**, in Mar'16 & in Feb '17, on **Nomadic Pods** - A new culture of nomadism expressed in space & products. These workshops were conceptualised & conducted by Prof. Asmita Divekar & Gyorgy Surek, & instructed by many Professors - Dhanashree Sardeshpande, Valshall Anagat, Poorva Kulkarni, Deva Prasad, Swapnil Gawande and many more

BNCA - under the aegis of the United Nations Academic Impact programme (UNAI), Prof. Asmita Divekar had collaborated with the team of 'BUSarchitektur' Vienna & had planned a series of events.

The second event - **public exhibition** planned at IHAG campus .
The last event in the series was a **public lecture by Dr. Laura Spinadel 'Playing from Inside'** of Chandrashekhar Auditorium

Significant Developments

- Prof Prabhu Aire, USA
- Prof. Don Grey from Kent University, UK visited BNCA. (2009-2010)
- Visit of Prof. David Crow - Prof David Crow from Manchester University in Jan 2010
- Visit of Harvard University Prof. Dr. Gajanan Sabnis & representatives in FEB. 2010
- University of Chatham representative visited BNCA
- **Ar. Stefano from Politecnico di Milano, conducted Digital Workshop at BNCA, 2012**

ASSOCIATIONS WITH INTERNATIONAL FACULTY MEMBERS

Significant Developments

**Prof. Dr. Johannes Widodo - Director of (CASA), National University of Singapore (NUS)**

Trained in architecture and urban history, his current research and teaching are more inclined towards an inter-disciplinary study on urban history, culture and morphology of Asian maritime cities, with special focus on Asia and the multi-layering process of different cultures (Vernacular, Hindu, Buddhist, Islamic, Chinese, European), and its transformation since the first century until the present.

TWIN Workshop with Dr. Johannes Widodo was organized by BNCA in association with INTACH. It was a **Research w'shop (5-9 July 2016) & Design w'shop (11-15 July 2016)**, followed by **Exhibition of students work (15 July, 2016)**. Program conceptualised & co-ordinated by Prof Shruti Joshi, assisted by Prof Shubhada Kamalapurkar, Prof Sharvey Dhangde, Prof Sujata Karve under guidance of our Principal. The intent of the workshop was to reflect on our architectural, urban paradigms, & to present alternatives to our existing paradigm of architectural design, city planning & urban management, based on a strategy for "holistic healing" by addressing the three basic "layers" of the city, namely: Morphological, Sociological and Cultural as strategic capitals to heal the city.

ASSOCIATIONS WITH INTERNATIONAL FACULTY MEMBERS

Significant Developments

MARCH 2016, we had Prof. Rob Fleming, Founding Director and Professor of MS in Sustainable Design Program from Philadelphia University, visiting BNCA for Collaborations. There was a GUEST LECTURE - "Beyond Green a lecture by Rob Fleming Sustainable Architect"

**Beyond Green**

How can sustainable design transform our lives?

A lecture by Rob Fleming, Architect and Professor

ASSOCIATIONS WITH INTERNATIONAL FACULTY MEMBERS

Significant Developments

In Aug 2016, Prof James Wescoat, Professor at Massachusetts Institute of Technology, USA, Co-director, AD/Urbanism Group and Acting Director, Aga Khan Program - visited BNCA & gave a public lecture to understand traditional practices and water conserving designs in Indian context and USA.

WATER CONSERVING DESIGN IN INDIA & USA

PROF. JAMES WESCOAT
Professor at Massachusetts Institute of Technology, USA.

2nd AUG 2016
1:00 pm to 7:00 pm

VENUE :
10th Auditorium, Kharadi colony,
Mumbai, Pune.

OPEN FOR ALL !

FOR FURTHER DETAILS CONTACT :
Dr. Prakash Dargol

Water is a prime need for any one and this has not been an exception. Recently, many cities in Maharashtra have faced with severe drinking shortages and water issues. While there is a traditional wisdom existing in our backyard, we seldom have a look at it, or try to understand it in detail. While several urban water conservation practices have been around in India for centuries, they are fast fading & elsewhere, poor the current government regulations, which finally, create a new water conservation deforestation practices.

Water harvesting, which, despite having been proved to be a very practical and effective practice to provide the precious resource, this subject is an opportunity for traditional landscape to modern practices and water conserving designs in Indian context and USA.

CULTURAL HERITAGE RESOURCE MANAGEMENT

International Conference

International Conference on Participatory Approaches for Cultural Heritage Resource Management. Supported by Savitribai Phule Pune University, BCUD Section in association with INTACH was held on 1,2,3 feb 2017

INTERNATIONAL CONFERENCE ON PARTICIPATORY APPROACHES TO CULTURAL RESOURCE MANAGEMENT

01 | 02 | 03 FEBRUARY 2017
DATES OF CONFERENCE

THEMES

India which is rich in cultural heritage is now posing a real challenge for tourism and its sustainable development of heritage sites. However the process involves multiple stakeholders with multiple perspectives and engaging them e.g. government, private sector, academic departments, local communities, tourist department etc. is a challenging task. This conference addresses these concerns.

The THEMES and sub-themes are as below –

- 1. CULTURAL RESOURCES**
 - a. Evolving scope and meanings
 - b. Tangible Cultural resources
 - c. Intangible Cultural resources
- 2. MANAGEMENT OF CULTURAL RESOURCES**
 - a. Managing values
 - b. Managing Development pressures and impacts
 - c. Managing change
 - d. Managing impacts of climate change
 - e. Management practices in urban and rural contexts
 - f. Managing economics and other resources
 - g. Managing social, cultural and natural environments
 - h. Role of Women, youth and senior citizens
- 3. PARTICIPATORY APPROACHES**
 - a. Methods and tools
 - b. Positioning in processes of conservation
 - c. Success stories and failures
 - d. Stakeholder roles, responsibilities

Conference will be a registration of expert lectures and paper presentations followed by panel discussion for above themes. International and National eminent speakers from the field of conservation and allied fields, from Asia and India will be invited for this conference. The conference will be preceded by Participatory Workshop engaging youth.

CONFERENCE WORKSHOP

Conference Workshop will be conducted in association with INTACH. The workshop is intended for heritage awareness and capacity building. A Heritage sketching and a Heritage Photography session is also envisaged as a part of the workshop.

REGISTRATION FEES:

Students: Rs. 2500/- Academicians: Rs. 3500/- Professionals: Rs. 4500/-

INTERNATIONAL ACHIEVEMENTS IN FOREIGN UNIVERSITIES

Significant Achievements

CONGRATULATIONS TO
SAYALI GHORPADE!

UNIV. OF QUEENSLAND SUMMER SCHOLARSHIP PROJECT
'INDIA IMPRINT ROAD STUDIO IN AUSTRALIA AND INDIA'.

Sayali Ghorpade, who had passed out from BNCA in 2012, had been selected to be one the scholars in the program of UQ Summer Research Guidelines. The students who qualified for a Summer Research Scholarship received an allowance equivalent to \$300 per week with further finance for the program by: adding one further one-off payment of \$1000 per, covering the travel expenses to be incurred during the field work in India. The program consisted of few weeks in in Brisbane, Australia, Chennai & Pondicherry, India.

CONGRATULATIONS TO
KSHITIJA KARMARKAR

TEXAS A&M UNIVERSITY, LANDSCAPE ARCHITECTURE DEPARTMENT
LANDSCAPE ARCHITECTURE DEPARTMENT SCHOLARSHIP 2017-18

Kshitija Karmarkar, who had passed out from BNCA in 2013, joined TAMU (ranked third landscape architecture schools in USA) in Fall 2016 and immersed herself completely into it. The department of landscape Architecture at TAMU recognized her dedication towards the field, leadership qualities and professional attitude towards colleagues and **awarded her with The Landscape Architecture Department Scholarship for the academic year 2017-2018**. Out of a total of about 60 applicants, she was the only graduate student that received this category of scholarship. She now works as a student assistant with Texas Target Communities in the College of Architecture at Texas A&M University.

INTERNATIONAL ACHIEVEMENTS IN FOREIGN UNIVERSITIES

Significant Achievements

**CONGRATULATIONS TO DEEPAL KILEWALA!
TEXAS A & M UNIVERSITY**

Deepal Kilewala BNCA Alumni Student, who is currently pursuing her Master's at TEXAS A&M University, participated in an **Art Competition and won - Aggle Frame of Mind Photography Contest**, held in Texas A&M University.

The President of the University Prof. R. Bowen Loftin came to meet all the participants and indicated his appreciation for Ms. Deepal's work which is greatly influenced by her home country India, which is known for its color and culture.

INTERNATIONAL ACHIEVEMENTS IN FOREIGN UNIVERSITIES

Significant Achievements

CONGRATULATIONS TO RIDDHI PARAKH!
GENSLER, LONDON, UK

Ar. Riddhi Parakh, BNCA alumni 10th batch 2007-08, **won the London Planning Awards for Best Conceptual Project category.** The project was named "the London underline" which would offer London the world's first network of subterranean pedestrian and bike paths.

INTERNATIONAL ACHIEVEMENTS IN FOREIGN UNIVERSITIES

Significant Achievements

CONGRATULATIONS TO SHILPA KHATRI!

Ar. Shilpa Khatri - BNCA Alumni - 2004 has been practicing program management in Washington DC. She had done **masters from George Washington University**, & received the **"Excellence award" (best student award) when graduating**. She is currently working as a program manager, with a firm known as **Brailsford and Dunlavy** and recently received the **"catalyst award"- employee of the year award** for her two high profile projects: **recreations centers** for previous mayors of DC. She has also worked on one of the **biggest tennis facilities** in east cost of USA and with **Venus Williams** for the interior design of this center. She has also recently completed a soccer field and amphitheater along with several DC parks, which was **under the Mayor's green DC initiative**.

INTERNATIONAL ACHIEVEMENTS IN FOREIGN UNIVERSITIES

Significant Achievements

CONGRATULATIONS TO DEEPIKA KHOWAL!
CARNEGIE MELLON UNV & HAVARD GRADUATE SCHOOL OF DESIGN

Deepika Khowal, BNCA Alumni Student, who pursued her Master's at Carnegie Mellon University - 2010 **received the George W. Anderson, Jr. Award**. This is awarded to graduate students studying in the School of Architecture who demonstrate, through their work, "an exceptional level of attention to detail AND dedication to beneficially impacting the community." received the award for architectural thesis' **Educational park for physically challenged.**

She is currently pursuing her practice as **Manager, Customer Success at View | Dynamic Glass**
She was recently issued a **U.S. PATENT** for -

CONTROLLING TRANSITIONS IN OPTICALLY SWITCHABLE DEVICES

United States US 13/449,235

Issued April 22, 2014

This disclosure provides systems, methods, and apparatus for controlling transitions in an optically switchable device.

CONTROL METHOD FOR TINTABLE WINDOWS

Type: Grant

Filed: February 21, 2013

Date of Patent: May 2, 2017
